## SALARY OF PRESIDENT WILL BE \$100,000 YEAR

### Senate Votes For the Increase---Democrats Voted Against the Measure.

WASHINGTON, Jan. 20.—The Senate yesterday adopted the amendment increasing the salary of the President to \$100,000, including all traveling expenses.

The Senate fixed the salary of the chief justice of the supreme court at \$15,000 and the associate justices at \$14,000.

The amendment increasing the salary of the President was adopted by a vote of 35 to 30. The Republican Senators who voted against the increase were Beveridge, Borah, Brown, Burkett, Clapp, Dolliver, LaFollette and Piles. No Democratic Senator voted in favor of the increases.

Senator Warren stated the committee had accepted the action of the Senate in fixing the salary of the Speaker of the House of Representatives at \$15,000 as significant of its desire to give a similar salary to the Vice-President, but they did not take the view that the committee's contention favoring a salary of \$100,000 for the President was affected by it. He expressed the hope that the allowance of \$5,000 annually for carriages or other vehicles for the Speaker and Vice-President would be allowed to stand.

Senator Bailey offered an amendment to eliminate the words "other vehicles," so as to prevent the purchase of automobiles, and in this connection he delivered a glowing tribute to the horse as man's best friend among the dumb animals.

Mr. Warren declared that on his ranch in Wyoming automobiles are used to hunt up and save the horses, and sometimes he has sent an automobile 200 miles to save sheep that otherwise would perish.

Mr. Hemmenway said in reply to a question that officials in Washington had a "little scheme" by which they "short circuit Congress" in the matter of the use of appropriations for purposes different from those for which they were made.

Mr. Bacon: "What does that mean?"

Mr. Bailey: "It means they cheat the Government."

Mr. Hemmenway: "It means that they use funds for some other pur-

poses than those for which the appropriation was made."

Mr. Bacon opposed the appropriation for horses and carriages. "A Senator or Representative," he said, "has ten times as much need for a carriage as the head of a department. I pay 25 cents for six tickets to ride on the street cars, and I presume that is what most Senators do when they go out of business."

Mr. Money argued that large expenditures were not necessary to maintain the dignity of office. "There is a gradual change of opinion going on," said Mr. Money, "and people now do not regard the President as the servant of the people, because in a current magazine a statement is made that there are two great rulers of the world, one Theodore Roosevelt, and the other, William H. Roth have been rebuked. William submitted, while the ruler of America, Theodore Roosevelt, refused to submit. This sentiment has gone so far that a coup d'etat by the President of the United States would be welcomed by some admiral in the navy and some general in the army, as well as I can learn. Now, it is time we should go back to something like Republican simplicity."

Referring to the Attorney-General, Mr. Money said a rumor had been going about the Senate some time ago that Mr. Bonaparte was going to Baltimore to study law. "It is unfortunate that he did not do that some years ago."

Mr. Borah said he would offer an amendment doing away with all of the carriages. "There is a bread line being fed day by day," said Mr. Borah, "in the shadow of this capitol, while we are using the people's money in this way."

By 40 to 21 the provision of \$5,000 each annually for carriages and horses for the Speaker and the Vice-President was stricken from the bill.

An amendment to reduce the salary allowance of the President from \$100,000 as proposed by the committee on appropriations to \$75,000 was defeated 33 to 32.

The question then recurred on the amendment to increase the salary of the President to \$100,000.

## DR. WOODROW WILSON ON LIFE OF GEN. LEE

### Lee Long Ago Ceased to Be Regarded As a Sectional Character.

CHAPEL HILL, N. C., Jan. 20.—"Many gratifying changes have taken place since the great struggle between the States, in which Gen. Lee played so conspicuous and distinguished a part, and one of the happiest thoughts of a celebration like this is that Gen. Lee long ago ceased to be regarded as a sectional character, that he has been accepted the country through as a great American, devoted in the time of his chief distinction to a particular cause."

Thus spoke Dr. Woodrow Wilson, president of Princeton University, at the Lee birthday celebration at the University of North Carolina last night. "The South does not grudge him to the nation as one of its great figures," he continued, "but it cherishes as a section a particular and ardent affection for the gracious gentleman who led its armies in the great contest, which was fought regarding some of the essential questions of our constitutional life. It loves to remember all the qualities of greatness that were in him, and how gentle and magnanimous a spirit dwelt in the great soldier, and how great a soldier it was who led her armies."

"We do not come together upon his birthday to praise him. It is not now necessary to assess and value him. It is rather our privilege and duty to speak of what he means to us in a new generation. We rehearse traits to quicken our own conscience and guide ourselves in times of stress and difficulty. There was no touch of the histrionic about Gen. Lee. His modest demeanor upon every field of action seems almost an attempt to withdraw himself from sight. He was, in fact, like every man of supreme force, compact of fire, as was Washington. Fire under control is the very emblem of force; uncontrolled it is the emblem of destruction; and this man's perfectly schooled and disciplined power is the model of what men who command should be.

"And so the life of Gen. Lee means

for us, first, a vision of personal force expressed, not in terms of self-interest, but in terms of service; and, second, service rendered in the spirit of the soldier not only, but in the spirit of the soldier who is also a thoughtful citizen—a statesman in the field.

"We are trying to form a national policy concerning many difficult matters. Each political party seems to ask what will be most acceptable. Some things are sufficiently plain. It is plain that principle is best for the country rather than mere expediency; that the mere makeshift of the moment or the measure which has no principle at its foundation will not in the long run either command votes or cement parties. Unless I am greatly mistaken, the only permanent principle of political liberty is the principle of individual responsibility and of individual opportunity. In the economic field the old order of work and enterprise has passed utterly away.

"We must make use of combinations and of organizations upon a great scale such as a past generation had not dreamed of. There must be governmental control, but it must take the form rather of a clearing, ordering and policing of the field of industry, whose object shall be the restoration of a quality of opportunity, the removal, so far as possible, of the opportunity for monopoly, and above all a return to the principle of strict individual responsibility.

"If we heed the example of such men as Gen. Lee," said the speaker, in conclusion, "we shall subordinate our wills to a definite principle, serve not a purpose of destruction, not a purpose of vengeance, but a purpose of conservation. Only by the conscious pursuit of such ideals and the conscious compulsion of such standards shall we restore an age of liberty, self-respect and hope."

## INTERESTING PROGRAM J. J. FINLEY CHAPTER

HISTORICAL AND SOCIAL REUNION TUESDAY NIGHT.

Musical Program and Entertaining Addresses Feature of Evening's Entertainment.

The Annual Historical and Social Reunion of the J. J. Finley Chapter, U. D. C., was held Tuesday evening from 8 to 11 o'clock at the residence of Mrs. J. D. Stringfellow. This attractive home was tastefully decorated for the occasion with lovely ferns and cut flowers. The program was composed of music and addresses, and each contributor to this part of the entertainment won well merited applause.

The program was opened with a piano solo, rendered by Mrs. W. F. Yocum in a skilful manner. Other musical selections by Misses Tittman and Leonora Vidal showed the ability of these artists. The vocal solos by Mrs. Dora Wallace, Dr. George S. Waldo and Miss Lucia Patton were highly appreciated. The singing of the State song of the United Daughters of the Confederacy, "Way Down Upon the Swanee Ribber," by the chapter, brought forth generous applause.

Judge Horatio Davis, commandant of Stonewall Camp, U. C. V., in a fitting memorial paid a loving and eloquent tribute to that beloved hero of the South, Gen. R. E. Lee.

Mrs. J. L. Kelley, president of J. J. Finley Chapter, responded in a few well chosen words, briefly outlining the objects and aims of the Daughters of the Confederacy.

Mrs. J. M. Taylor followed with a short sketch of the historical work of the chapter during the past year.

The program closed with a humorous recitation by Miss Belle Sadler. Her natural and inimitable style won for her a hearty encore, to which she responded with "You Old Confeds."

Delicious refreshments were served. Mrs. J. D. Stringfellow and Mrs. W. B. Taylor presiding at the table, which was tastefully decorated in the red and white colors of the Daughters. After a social hour the large assembly of friends, in taking leave of the genial hostess, expressed themselves in terms of high appreciation.

The Mildred E. Lee Chapter, Children of the Confederacy, also observed memorial services at the residence of Mrs. G. K. Broome from 3:30 to 5 p. m. Songs by the children and addresses from visitors comprised the program.

At this time the children decided to offer a gold medal to the student of the University of Florida who submits the best essay on the "Cause that led up to the war between the States." Great enthusiasm was manifested by the children.

After partaking of delightful refreshments the children bid adieu. Both chapters desire to express their sincere appreciation to those who so generously contributed to these enjoyable occasions.

There having been numerous requests for the production of "The Passion Play," in moving pictures at the Electric Theatre, the management state that they will secure this wonderful spectacular set of pictures at the earliest possible day and trust that this will be not far distant.

As usual, the pictures exhibited Wednesday night were excellent and fine ones are assured for every night this week. While the carnival present in the city this week may attract a number of our citizens, the decrease in attendance at the Electric Theatre is not effected to any extent.

#### "Charley's Aunt."

As so many people were unable to attend the performance of "Charley's Aunt" last Friday evening, another opportunity will be given them. The caste have all consented to play again on Friday, the 22nd, and promise a smoother performance. Mr. Tench expects to have his gowns from Paris for the occasion. He says the other "ladies" in the caste so far overshadowed him they made him jealous. If you haven't seen this little gem of a comedy, come out Friday night—if you have seen it, come anyhow and see if we haven't improved. At any rate, if you don't see it, don't tell me Saturday that you are sorry, because you won't be half as much so as I. You can go this morning and get a ticket at Miller & Vidal's or you can wait until tomorrow—it don't matter, just so you get the ticket before Friday night.

#### "SPETTIGUE."

#### A Laughable Comedy.

Of the many comedies which have been produced in this country during the past few years there is not one which has achieved a greater record of success than "Peck and His Mother-in-Law Abroad," which will be seen for the first time here at The New Baird Theatre Monday night, January 25th. Indeed, judging from all accounts, there are certain sections of the country where its popularity has not been even remotely approached by any similar work. It was presented for nine weeks in Boston to a succession of literally overflowing audiences, whence it proceeded to the larger New England towns and created something like a sensation, going back to the same cities two, three, and even four times within a few weeks, and invariably with the same results in the matter of tremendous patronage.

## ARCHER WILL HAVE NEW BRICK BUILDING

C. D. WOOD WILL ERECT HANDSOME STRUCTURE AT ONCE.

Dempsey Secures the Contract and Has Placed Order for the Material for Building.

Archer is to have another brick store to be built on the latest plans which will prove quite an addition to that fast growing little city.

S. H. Dempsey, the contractor, returned Wednesday from that place, where he closed the contract with C. D. Wood for the erection of a large store building to be 40x75 feet in size and one story high for the present.

The building will have an iron and plate glass front, and the remainder of the structure will be of brick.

This new building will be located just south of the depot, on the lot owned by Mr. Wood, and together with the other improvements which have already been made around the depot it shows that Archer is fast growing in this particular part of the town. Many predict that it will only be a short while before about all the principal business houses will be located at the depot.

Work will commence on this new building at once and he will rush it through to completion as fast as the material can be gotten on the ground, the order already having been placed. In the meantime the excavation work will be started.

Some die of old age, some old partners of Daniel Boone, but none has ever been known to die from physical irregularities contracted in Tombstone aside from the above mentioned causes and occasionally an abnormal tightness about the throat, superinduced by a coil of manila rope, or from a cold caught through a hole made by a 45.—Tombstone Epitaph.

### Will Build Another House.

## CAVE HOUSES.

France is Dotted All Over With These Curious Habitations.

"There are no fewer than 2,000,000 cave dwellers in France," writes a traveler. "Whether you travel north, south, east or west you find these curious imitations of the homes of primitive man. They stretch for fully seventy miles along the valley of the Loire, from Blois to Saumur, and as the train proceeds you can catch a glimpse from time to time of their picturesque entrances, surrounded by flowers and verdure. As likely as not you will see the inhabitants standing or sitting in front of their mysterious looking caverns, and unless you have learned the country you will be inclined to imagine that they possess some of the characteristics of the troglodytes of old and that their homes are mere dens. Not so, as you will find on visiting them.

"They are nearly all well to do peasants, owners perhaps of some of the vineyards that deck the slopes on all sides, and their habitations are, as a rule, both healthy and comfortably furnished. These singular houses are remarkably cool in summer without being in the least damp, while in winter they can be warmed much more easily and better than ordinary apartments. The health of the modern troglodyte is, as a rule, excellent, and it is not uncommon to find centenarians among them. This, however, is by no means surprising when we consider that their homes are not only healthful to live in, but are also comfortably furnished and fitted up.

"In the majority of cases these rock houses were not excavated for the special purpose of being inhabited, but with the object of obtaining stone for the building of houses. At Rochecorbon there is a rock dwelling carved out of a single block of stone, and the ingenious owner, in addition to making a two story villa therefrom, has provided himself with a roof garden, from which a fine view of the valley can be obtained. A similar house exists in Bourre, in which locality the disused quarries are said to date back to the days of the Romans."

## WAYS OF THE ARABS.

Dodging the Evil Eye and Tests of Filial Piety.

Very curious to the occidental mind are some of the ways of Arabia and other Mohammedan countries. A traveler says: "One of the objects of the most anxious solicitude for Mohammedan parents is the shielding of their children from the evil eye. Any person expressing admiration for a child except by pious ejaculation or the invocation of blessings upon the prophet fills the heart of the parent with apprehension. When children are to be taken into the street their faces are often even smeared with mud or greasy substances lest their comeliness should attract attention, and in order that the person of the child itself should escape attention gaudy and glittering ornaments are hung about it and written charms sewed into leather medallions suspended from its neck.

"One of the best of Arab characteristics is that of filial piety. Sons and daughters of deceased parents take upon themselves all sorts of irksome

## A POSITIVE CURE FOR INDIGESTION

If you have indigestion, your food ferments in the stomach and bowels. It does more: it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath which disgusts your friends, and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments and oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

MI-O-NA is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by J. W. McCollum & Co. to cure or money back. The price of a large box of MI-O-NA tablets is 50 cents, and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them.

## FOR AGED PEOPLE

Old Folks Should be Careful in Their Selection of Regulative Medicine.

With advanced age comes inactive bowel movement and sluggish liver. Nature is unable to perform her proper functions and requires assistance. Otherwise, there is constant suffering from constipation and its attendant evils. Old folks should never use physic that is harsh and irritating.

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitutions who suffer from constipation or other bowel disorder. We are so certain that it will cure these complaints and give absolute satisfaction in every particular that we offer them shall cost the user nothing if they fail to substantiate our claims. This remedy is called Rexall Orderlies.

Rexall Orderlies have a soothing, healing, strengthening, tonic and regulative action upon the dry, relax muscular coat of the bowels. They produce a natural, successive contraction and relaxation of the muscular fibres of the bowel walls, generating a wave-like motion which forces their contents onward and outward; thus stimulating nature in perfect bowel movement. They also remove all irritation, dryness, soreness and weakness. They tone up and strengthen the nerves and muscles and restore the bowels and associate organs to more vigorous and healthy activity. They may be taken at any time without inconvenience, do not cause any griping, nausea, diarrhoea, excessive looseness, flatulence or other disagreeable effect. Try Rexall Orderlies on our guarantee. 36 tablets 25c, and 12 tablets 10c. J. W. McCollum & Co., corner East Main and Union streets.

"Eloquence is accounted the greatest of all possible gifts. According to Arab tradition, the most superlative degree of eloquence was attained by King David, such being the beauty of his diction, added to the poetry of his words, that when he declaimed the Psalms even birds and wild beasts were spellbound, while on some occasions as many as 400 men died from the excess of delight induced by his reading."—Chicago News.

## Fumigating Library Books.

The library subscriber sniffed suspiciously at the copy of "The Three Musketeers" which she was about to take home. "Carbolic acid," she said. "Have you been fumigating the books?" "No, we haven't," said the librarian, "but some subscriber has. Many of our patrons like to do their own fumigating. Usually they use carbolic acid. At times when a good deal of sickness is reported the fumigating craze is especially severe and one-third of the books brought into the library smell to heaven with carbolic acid."—New York Press.

## Sierra Leone.

Sierra Leone—known to fame as "the white man's grave"—viewed from the deck of an incoming steamer presents an appearance distinctly attractive. As to climate, the sobriquet "white man's grave" is sufficiently instructive. Suffice it to say that the first of the daily regimental orders ran thus: "Funeral parade at 6:30 a. m. tomorrow," and it was seldom indeed that the parade was dismissed for lack of a victim to the pestiferous climatic conditions. Indeed, so arduous became the duties of sepulcher that, whereas it was customary in the beginning for the entire regiment and band to attend, only the company of the deceased and the firing party did so later on. Sierra Leone is infested with snakes, large and small. The former are of the constrictor species; the latter are all extremely venomous. The most deadly of all perhaps is the yellow jack, a beautiful yellow and black reptile, whose bite is reputed to prove fatal within a space of twenty minutes.—Westchester County Magazine.

## What Is It, a Lobster?

That the methods of public school instruction as applied in one city at least do not always meet the approbation of the parents of the pupils was evidenced when a German man whose bristly blond hair was standing perfectly erect with anger strode into a Baltimore school one day and, approaching the principal, demanded:

"Vot is it, a lobster?" The principal explained in his suavest tone that a lobster was a species of shellfish.

"How many legs has it—der lobster?" The number of legs was promptly stated.

"Look here," exclaimed the irritated Teuton, "I work for me in a big hurry, and if your teacher he cannot find petter dings to ask my boy Herman how many legs has it, a lobster, and make him come home to bodder his fadder mit questions, 'What is it, a lobster?' it is pad business!"—Lippincott's.

## Saved His Rupees.

During a great flood at Haidarabad a native banker, overtaken by the sudden rush of water, made his way on to a mound, where he was quickly isolated. The water rose, and the banker's legs were covered to his knees. "Fifty rupees (about £3 7s.), 50 rupees," he shouted, "to any one who will save me!" When the water reached his shoulder he was shouting, "One thousand rupees!" When enveloped to his neck, with death staring him in the face, he yelled: "Help, help! All that I have will I give to any one to save me!" Shortly after the water began to recede. When once more he was covered only to his knees an offer of rescue came. But the banker, plucking up his courage, cried: "Keep off! Keep off! I will not give a rupee!" and succeeded in making his escape free of charge.—St. James' Gazette.

## Origin of "Bonfire."

Stow, referring to the "bonifiers" which the citizens of London were wont to make in the streets on "the vigiles of festuall dayes and on the same festuall dayes in the euenings after the sunne setting every man bestowing wood or labour towards them" and which were an occasion of feasting and merriment, says that "these were called bonifiers as well of good amitie amongst neighbours, that, being before at controuersie, were there by the labours of others, reconciled, and made of bitter enemies, loving friends, as also for the vertue that a great fire hath to purge the infection of the ayre."—London Globe.

## TELEPHONE TALKS

## The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

We now know officially who is elected President for the electoral college has met and cast its vote. The fact that the people actually made the choice in November and that the action of the college was only perfunctory indicates the change that has taken place since the day our fathers designed that the actual and not the nominal election should be done by the electoral college and not by the people.

## CURRENT COMMENT.

The Washington Herald says: "The Haineses and the Thaws but crowd to its zenith the fallacy of personal vengeance, and when that zenith is reached it must be passed, and the vile things the 'unwritten law' seeks to glorify must sink to that darkness again whence it originally arose to give some measure of pause to the splendid progress of Christian civilization."

The New York Tribune says: "The President-elect has promised to live up to the same general standard in making appointments in the South as he accepts in making appointments in other sections. That is only fair and just. Such a promise indicates Mr. Taft's sincere intention to treat the South not as a section in itself, isolate politically from the rest of the Union, but as a section ready to reassume its proper role as a joint factor in all national undertakings."

The New Orleans States says: "Evidence is not wanting that the American people, who are now struggling desperately to make their incomes meet their expenses, will make the question of cheaper food and a lower cost of living the paramount issue in the Congressional election next year and the Presidential election of 1912. It is an issue that will thrust itself into every home circle in the land and before it party lines will go down as they have never done before in the history of the country's politics, for there is little reason to doubt that the mass of the people, regardless of party faith, will unite in support of a policy to lower the cost of living and increase the purchasing power of the dollar."

The Philadelphia Record says: "It is evident that, while the people do not elect postmasters and collectors and district attorneys and marshals, the President should appoint such officials as the people would elect if they had a chance—representative men in the communities where they live, men who command the confidence of their neighbors. Instead of that, Republican Presidents have pretty uniformly appointed men in the interest of a small clique of politicians claiming to be the Republican party in the South and unwilling that the party should be large; their prominence in its affairs being an effective guarantee that it should never be too large to be controlled by them. \* \* \* If nearly all the respectable and capable men in the South are Democrats the National Government must find its agents among them, even though the President be a Republican."

The Springfield Republican says: "Congress once, in its early days \* \* \* in the old sedition act of 1798 provided for the prosecution, with fine and imprisonment, of any person guilty of printing or publishing 'any false, scandalous, and malicious writings against the Government of the United States, or either house of Congress, or the President, with intent to defame them or bring them into contempt and disrepute.' That law, so flagrantly in violation of the prohibition of the first amendment, lasted just about three years, and, besides coming near to causing a revolution, its chief consequence was to start the destruction of the Federalist party which was responsible for it. No Congress will ever again repeat that mistake, and it is to be supposed that the Federal courts will permit the Roosevelt government to find powers in the common law which are denied to the said government by the constitution? We rather guess not."

The old age pension act in England is now in operation and the first payment to successful applicants is being made this month. There are so many conditions attached that by no means everyone that reaches the age limit and applies for a pension is successful. Necessary as these conditions may be, they nevertheless cause considerable disappointment and some dissatisfaction, but on the whole the measure is popular and it will doubtless brighten the lot of many an old person who otherwise would continue in poverty. The working of the act is being watched with keen interest by other countries.

New York is going to try to settle the tramp problem by the establishment of farm colonies in which tramps will be set to work. The attempt will be watched by other States with sympathetic interest, for the tramp is a nuisance and a menace to society everywhere. Too lazy to work, and generally so devoid of principle that he does not hesitate to steal, not only does it mean a half million of dollars tramping up and down the country with all the loss of production labor that implies, but the expense involved in keeping him and protecting society against him is enormous.

This is the centenary of what has been well called, "The Year of Genius," and the anniversary of the birth of the distinguished men who first saw the light in the memorable year of our Lord 1809 will be fittingly observed during the next twelve months. Considering the smallness of the population of this country a hundred years ago, it is remarkable what a number of Americans, who achieved world-wide distinction, were born in that year.

## GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

### Gainesville Has:

One artist.  
No saloons.  
One garage.  
Four hotels.  
Four banks.  
Four dairies.

## SPEARING A BEAR.

Sharp Teeth Bit Through the Copper Sheathed Weapon.

When in my chase of brain I have seen a bear spear as my weapon of attack," writes Count Eric von K... and I may take this opportunity to maintain that the use of a spear entails no greater cruelty than any other mode of attack and that a hunter should be armed with a spear, since these powerful animals have a vitality that triumphs over a stray bullet or more unless it is a vital region, and when a bear's retaliation is redoubtable and easily fatal. In Karelia, Finland the bear is yet regarded as a monstrous horror. The great black haired bear, or killing bear, as still ramble there, and a couple of winters back I was able to wreak justifiable vengeance on some beasts that had killed over a score of cows and nine calves. News had been brought me that some of these rascals were hibernating on a small marsh bound island. We found no difficulty in locating them, and I took up my post at a distance to it, armed only with my spear. I may explain that a bear spear consists of an ash staff some two feet long and about a couple of inches in diameter. There is a blade of steel about twelve inches in length, and the shaft is copper cased as a protection against the teeth of bruin. As soon as my gentleman appeared I tried to strike him in the throat, but he parried adroitly, and I missed. I made another lunge and succeeded in driving my spear point through his breast. He started roaring furiously and reared at my copper cased staff, then made an attempt to strike at my arm with his huge fore paw, so that I might drop my weapon. The powerful bruin hung on to my spear at the one end, while I as grimly held on at the other end. His bites went through the copper plate, and he started shredding the wood beneath. Strenuously I checked his further advances, and gradually, for his wounds began to tell, his resistance weakened, and he layed at last over the aperture of his den.

"I pulled out the spear, but so much strength still remained in him that he seized the blade and bit it with a force that left deep indentations in the wood. My companion then finished him off with his own weapon. This struggle from start to finish covered ten minutes."

## QUEER ENGLISH TAXES.

Babies as Well as Windows Used to Help Swell the Revenues.

In 1865 a tax of 2 shillings had to be paid by the parents of every "little danger" born in England except by people in receipt of alms. Curiously enough, a measure proposing a tax on babies was introduced some time ago in the local parliament of the German principality of Reuss by which it was proposed that the parents or mother when registering the birth of a child should in each case contribute a sum amounting to 10 cents.

Some time ago a good deal of merriest was aroused by a measure introduced in the legislature of New Jersey by which it was proposed to tax beards, but even this is not an original proposal. Queen Elizabeth put a tax on every beard of a fortnight's growth, while a couple of centuries ago Peter the Great insisted that all nobles who wore beards should pay 10 rubles for the privilege.

As chancellor of the English exchequer Pitt rendered himself very unpopular by the extraordinary means to which he resorted in order to improve the state of the country's exchequer. He it was who first introduced the income tax, and he also levied a tax upon horses, which caused a certain farmer to use a cow for the purpose of riding to and from market.

Even more dissatisfaction, however, was caused by Pitt's increase of the window tax, first imposed in the year that the tax on babies was enforced. This window tax caused property owners to wall up as many windows as possible, in order to reduce the amount for which they were liable.—Philadelphia Ledger.

## Buddhist Ceremonies.

Some Buddhist ceremonies present a striking analogy to certain Christian rites. An old missionary says: "The very titles of their intercessions, such as 'goddess of mercy,' 'holy mother,' 'queen of heaven,' with an image of the virgin having a child in her arms holding a crescent, are all so striking coincidences that the Catholic missionaries were greatly stumbled at the resemblances between Chinese worship and their own when they came over to convert the natives to Christianity."—London Standard.

## OWES HER LIFE TO

## Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va. — "I feel that I owe the last ten years

of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound." — Mrs. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

## Hugo and Merimee.

It is probable that with the exception of Byron no great literary genius ever was greeted with such a storm of vilification and abuse as Victor Hugo when he published "Les Miserables." While the book took the public literally off their feet, almost all Hugo's rivals united in condemning it and its author.

Proper Merimee wrote in reference to a dinner given to Hugo at Brussels: "Have you read Victor Hugo's speech at the dinner given to him by Belgian librarians and other scoundrels of Brussels? His statements were without depth, solidity or common sense. He is a man who intoxicates himself with words and does not take the trouble to think."

Victor Hugo retorted by writing to a friend, "M. Merimee is a man naturally vile."

## S.S.S. PURELY VEGETABLE

It is a generally recognized truth that medicines made from vegetable ingredients are a great deal better adapted to the delicate human system, and safer in every way, than those composed of strong mineral mixtures and compounds. Mercury, potash, arsenic, etc., which are used in the manufacture of most blood medicines, are too violent in their action, and frequently derange the system by disturbing the stomach and digestion, affecting the bowels, and when used for a prolonged period often cause Rheumatism. S. S. S. is the only blood medicine guaranteed absolutely and purely vegetable. It is made entirely of roots, herbs and barks, selected for their purifying and healing qualities. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Poison, and all other blood diseases, because it cleanses and purifies the blood, and at the same time builds up the entire system by its fine vegetable tonic effects. S. S. S. may be taken by young and old with absolute safety, and with the assurance that it will cure the diseases and disorders due to an impure and poisoned blood supply, even reaching down and removing hereditary taints. Look on the blood and any medical advice free to all who write.

## COLLEGE NICKNAMES.

Some Popular With the Students—Objection Made to Others.

Some of the colleges have a great dislike to the way in which they are referred to commonly in connection with athletics. For instance, Wesleyan men don't like to be called "the Methodists," as they appear sometimes.

At the Naval academy there is a strong prejudice against being called "Annapolis." The navy men aren't particularly fond of "midshipmen." They believe the proper name for their institution is "the navy."

Columbia has a great distaste for the name of "Columbians" for their representatives in athletics or other public appearances. At the University of Chicago there is a dislike of the name "Chicago university," sometimes applied.

Although not so strongly opposed to it, students at Pennsylvania do not like the full title "University of Pennsylvania" as well as plain "Pennsylvania." "Penn" is preferred to either.

"Maroons" for Chicago men, "Gophers" for Minnesota, "Badgers" for Wisconsin students, "Cornhuskers" for Nebraska, "Wolverines" for Michigan, "Illini" for the men of Illinois—all are names that are popular at those colleges and are used by the men there in speaking of their own teams. Indeed, to a man unacquainted with nicknames the average statement regarding a conference college is puzzling because of the almost entire lack of straightout names.—New York Sun.

The gratuitous concerts rendered every afternoon and evening by the Italian band attached to Johnny Jones' Carnival, on the platform in front of the Brown House, are highly enjoyed by the best people of our town who flock there in daily increasing numbers. It is the unanimous opinion of connoisseurs that the band led by Mr. Vittici is the best ever listened to, not only in Gainesville but in any Southern town short of Atlanta or Jacksonville.

## SALARY OF PRESIDENT WILL BE \$100,000 YEAR

### Senate Votes For the Increase---Democrats Voted Against the Measure.

WASHINGTON, Jan. 20.—The Senate yesterday adopted the amendment increasing the salary of the President to \$100,000, including all traveling expenses.

The Senate fixed the salary of the chief justice of the supreme court at \$15,000 and the associate justices at \$14,000.

The amendment increasing the salary of the President was adopted by a vote of 35 to 30. The Republican Senators who voted against the increase were Beveridge, Borah, Brown, Burkett, Clapp, Dolliver, La Follette and Piles. No Democratic Senator voted in favor of the increase.

Senator Warren stated the committee had accepted the action of the Senate in fixing the salary of the Speaker of the House of Representatives at \$15,000 as significant of its desire to give a similar salary to the Vice-President, but they did not take the view that the committee's contention favoring a salary of \$100,000 for the President was affected by it. He expressed the hope that the allowance of \$5,000 annually for carriages or other vehicles for the Speaker and Vice-President would be allowed to stand.

Senator Bailey offered an amendment to eliminate the words "other vehicles," so as to prevent the purchase of automobiles, and in this connection he delivered a glowing tribute to the horse as man's best friend among the dumb animals.

Mr. Warren declared that on his ranch in Wyoming automobiles are used to hunt up and save the horses, and sometimes he has sent an automobile 200 miles to save sheep that otherwise would perish.

Mr. Hemenway said in reply to a question that officials in Washington had a "little scheme" by which they "short circuit Congress" in the matter of the use of appropriations for purposes different from those for which they were made.

Mr. Bacon: "What does that mean?"  
Mr. Bailey: "It means they cheat the Government."

Mr. Hemenway: "It means that they use funds for some other pur-

poses than those for which the appropriation was made."

Mr. Bacon opposed the appropriation for horses and carriages. "A Senator or Representative," he said, "has ten times as much need for a carriage as the head of a department. I pay 25 cents for six tickets to ride on the street cars, and I presume that is what most Senators do when they go out of business."

Mr. Money argued that large expenditures were not necessary to maintain the dignity of office. "There is a gradual change of opinion going on," said Mr. Money, "and people now do not regard the President as the servant of the people, because in a current magazine a statement is made that there are two great rulers of the world, one Theodore Roosevelt, and the other, William II. Both have been rebuked. William submitted, while the ruler of America, Theodore Roosevelt, refused to submit. This sentiment has gone so far that a coup d'etat by the President of the United States would be welcomed by some admiral in the navy and some general in the army, as well as I can learn. Now, it is time we should go back to something like Republican simplicity."

Referring to the Attorney-General, Mr. Money said a rumor had been going about the Senate some time ago that Mr. Bonaparte was going to Baltimore to study law. "It is unfortunate that he did not do that some years ago."

Mr. Borah said he would offer an amendment doing away with all of the carriages. "There is a bread line being fed day by day," said Mr. Borah, "in the shadow of this capitol, while we are using the people's money in this way."

By 40 to 21 the provision of \$5,000 each annually for carriages and horses for the Speaker and the Vice-President was stricken from the bill.

An amendment to reduce the salary allowance of the President from \$100,000 as proposed by the committee on appropriations to \$75,000 was defeated 33 to 32.

The question then recurred on the amendment to increase the salary of the President to \$100,000.

## DR. WOODROW WILSON ON LIFE OF GEN. LEE

### Lee Long Ago Ceased to Be Regarded As a Sectional Character.

CHAPEL HILL, N. C., Jan. 20.—"Many gratifying changes have taken place since the great struggle between the States, in which Gen. Lee played so conspicuous and distinguished a part, and one of the happiest thoughts of a celebration like this is that Gen. Lee long ago ceased to be regarded as a sectional character, that he has been accepted the country through as a great American, devoted in the time of his chief distinction to a particular cause."

Thus spoke Dr. Woodrow Wilson, president of Princeton University, at the Lee birthday celebration at the University of North Carolina last night. "The South does not grudge him to the nation as one of its great figures," he continued, "but it cherishes as a section a particular and ardent affection for the gracious gentleman who led its armies in the great contest, which was fought regarding some of the essential questions of our constitutional life. It loves to remember all the qualities of greatness that were in him, and how gentle and magnanimous a spirit dwelt in the great soldier, and how great a soldier it was who led her armies."

"We do not come together upon his birthday to praise him. It is not now necessary to assess and value him. It is rather our privilege and duty to speak of what he means to us in a new generation. We rehearse traits to quicken our own conscience and guide ourselves in times of stress and difficulty. There was no touch of the histrionic about Gen. Lee. His modest demeanor upon every field of action seems almost an attempt to withdraw himself from sight. He was, in fact, like every man of supreme force, compact of fire, as was Washington. Fire under control is the very emblem of force; uncontrolled it is the emblem of destruction; and this man's perfectly schooled and disciplined power is the model of what men who command should be."

"And so the life of Gen. Lee means

for us, first, a vision of personal force expressed, not in terms of self-interest, but in terms of service; and, second, service rendered in the spirit of the soldier not only, but in the spirit of the soldier who is also thoughtful citizen—a statesman in the field.

"We are trying to form a national policy concerning many difficult matters. Each political party seems to ask what will be most acceptable. Some things are sufficiently plain. It is plain that principle is best for the country rather than mere expediency; that the mere makeshift of the moment or the measure which will not in the long run either command votes or cement parties. Unless I am greatly mistaken, the only permanent principle of political liberty is the principle of individual responsibility and of individual opportunity. In the economic field the old order of work and enterprise has passed utterly away."

"We must make use of combinations and of organizations upon a great scale such as a past generation had not dreamed of. There must be governmental control, but it must take the form rather of a clearing, ordering and policing of the field of industry, whose object shall be the restoration of a quality of opportunity, the removal, so far as possible, of the opportunity for monopoly, and above all a return to the principle of strict individual responsibility."

"If we heed the example of such men as Gen. Lee," said the speaker, in conclusion, "we shall subordinate our wills to a definite principle, serve not a purpose of destruction, not a purpose of vengeance, but a purpose of conservation. Only by the conscious pursuit of such ideals and the conscious compulsion of such standards shall we restore an age of liberty, self-respect and hope."

## PENDARVIS IS AGAIN PLACED BEHIND BARS

MAN IS EVIDENTLY DEMENTED  
OR USING STRONG OPIATE.

Not Only Did Wife and Children Be-  
come Afraid of Him But Neigh-  
bors Made Complaint.

From Tuesday's Daily Sun:

G. W. Pendarvis, the operator and cigar man, has again been placed behind prison bars, and he will not again be given his liberty until his sanity is finally settled or it has been decided what causes these frequent spells.

For the past week he has been gradually getting worse and it is said that he was even threatening the neighbors who had kindly taken his wife in to keep her from being harmed.

Sunday he became so violent on the streets that the marshal was compelled to lock him up, and he was finally turned over to the county authorities. Some people believe the man is using a strong opiate, as he always improves just as soon as he is confined where he cannot get at anything, while others are of the opinion that he is insane and only has these spells occasionally.

## THE NEW STEEL VAULT.

County Records Will Soon Be Safely  
Protected from Fire.

The new steel fixtures for the Alachua county vault will now be installed at once.

C. D. Percell, representing the Art Metal Construction Company of Jamestown, N. Y., has arrived in the city for the purpose of placing this new vault in position and to take out the old vault, which the company purchased.

Mr. Percell says the work of making this change will require about ten days.

When finished the new vault will be one of the most complete in the State and will afford the clerk and his assistants better facilities for handling and keeping the various important papers of the county. Besides the new vault will be better protection than the old wooden structure that was being used heretofore.

## STATE WITNESS IS JAILED AT BARTOW

BEXLEY-OSTEEN CASE.

Return Man to This City to  
Await Trial.

From Tuesday's Daily Sun:

T. E. Mixson, one of the State witnesses in the Bexley-Osteen case which will be argued for bond here this week, was arrested at Bartow, charged with failing to appear according to his summons.

Mixson is said to be a very valuable State witness, and instead of answering to his summons he left for parts unknown and could not be found when he was wanted. He was finally located at Bartow, where the sheriff of this county had him arrested and held until he could go for him.

Whether he will be used in the case which will be argued here this week is not known.

Sheriff Ramsey returned Sunday from Bartow, bringing the man back here, and he was placed in jail to await the time he is wanted.

## BONNIE MELROSE.

(By H. von Noszky.)

Miss Cora Craig of Chesterfield, S. C., is the guest of Mrs. M. J. Barnett.

## A Religious Author's Statement.

For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. J. W. McCollum & Co.

## Solid Car Hogs.

A solid carload of hogs passed through the city yesterday for South Florida, where they will be butchered. This is a new way of shipping fresh meat in this section, but it stands to reason that it would prove a way for the people to get the meat fresh by doing their own butchering. The expense in handling fresh pork in this manner is not as heavy as it is by purchasing it already dressed.

Itching piles provoke profanity, but profanity won't cure them. Doan's Ointment cures itching, bleeding or protruding piles after years of suffering. At any drug store.

## WOMAN'S M. I. IN SESSION AT CHURCH

DELEGATES PRESENT FROM ALL  
SECTIONS OF STATE.

Afternoon and Night Session Held  
Which Will Be Followed by  
Another Session Today.

From Tuesday's Daily Sun:

The Woman's Missionary Institute of the Methodist Church is now in session in this city and is being largely attended. Many delegates from outside are present at the meeting.

The meeting was opened by devotional exercises by Mrs. B. F. Holland, conference secretary, who chose for her subject "Service." She thoroughly covered the subject and showed that she had given it much thought.

This was followed by Workers' Conference, each auxiliary present taking part. The subject first discussed was "The Strong Point in Our Society, and How Attained." Each auxiliary had a different strong point as to how they were obtained and were helpful to the other auxiliaries. Gainesville auxiliary showed several strong points, among which were its liberality, the efficiency of its officers and attendance of its members to the business meetings.

The next on the program was "Our Literature and How to Use It." Mrs. W. F. Yocum led this subject. The discussion was conducive to a great awakening on the proper use of our literature. "Surely the thing we need is to read, to have knowledge." This utterance came in convincing tones from Miss Davies, as she in her magnetic way presented and discussed subjects. The subject of "Our Young People," was led by Mrs. Lamons. This most important subject was skillfully handled and was a fitting prelude to the children's hour, which was in charge of Miss Davies, who talked in Chinese costume. Probably this part of the program will result in more lasting good. The future alone will show. Because of the lateness of the hour, the Institute closed to convene in the evening.

## FARMERS' UNION TO MEET AT LIVE OAK

Barrett, president of the National Union, will be in attendance and deliver a lecture. The local county unions are taking a great interest in the coming convention and everything points to a very successful meeting.

A jolly crowd of Gainesville citizens, comprising E. A. O'Neill, E. K. Fagan, Lee Graham, J. W. McCollum, W. S. McDowall, Geo. P. Morris and W. J. They go prepared for the trip, with all bedding, provisions and tents preparatory to having a jolly good time for the remainder of the week.

Mr. Morris was the only one of the crowd that did not resemble camp hunters, as he left the city with a white vest and neat button-hole bouquet adorning himself, but it is said that he also had a pair of boots.

## PORTRAITS OF DAVIS AND LEE PRESENTED

BY KIRBY SMITH CHAPTER TO THE UNIVERSITY.

Col. Chris. Matheson Made Presentation Speech, Which Was Responded to by Dr. Andrew Sledd.

(By Dr. C. L. Crow.)

From Wednesday's Daily Sun:  
The presentation yesterday morning to the University of portraits of Jefferson Davis and of Robert E. Lee by the Kirby Smith Chapter, U. D. C., was an extremely interesting occasion. The University began at 8:30 to run the conveyances from the square to the campus, and all were well filled, so that when Mrs. J. E. Wainwright, the president of the chapter, called the meeting to order the chapel held a large audience. The ladies of the chapter occupied seats to the left of the speaker's stand, and in front to the right set the battalion of cadets in dress uniform, under command of Major Walker. Among the audience were also representatives of the J. J. Finley Chapter, U. D. C., as well as of the Confederate Camp of Veterans, and Lew Wallace Post, G. A. R. The exercises began with an invocation by Dr. Sledd. After this Mrs. Wainwright, in a few well-chosen words, introduced Mr. Christopher Matheson, who was to make the speech of presentation. There is no need to tell the Gainesville readers of The Sun of Mr. Matheson's magnificent voice, of his pleasing appearance, and of his great oratorical power. Mr. Matheson had a great subject and he handled it fittingly.

After a graceful introduction, the speaker referred to President Davis' "Rise and Fall of the Confederate Government" as a work, written in labor and travel, to conserve the truth concerning those who went down to defeat in vain defense of the "lost cause." Then he repeated Davis' beautiful dedication of the book to the women of the Confederacy, then he showed that the women of the South were still true to their old traditions. "And it is the Daughters of the Confederacy who present these pictures today." Then the appropriateness of such a gift was lightly touched upon. The picture of Gen. Lee was especially fitted to hang on the walls of a Southern college, for Lee, "guided as ever by a sense of duty, had resolved to remain in Virginia after the war and help to rehabilitate his desolate land by teaching her young men."

"Both of our great leaders were doomed to defeat and disappointment." Then the speaker quoted from Senator Daniel's matchless eulogy of Davis.

"Dr. Palmer has reminded us that when a nation has rushed upon its fate, the whole force of the national life will sometimes shoot up in one grand character like the aloe which blooms at the end of a hundred years. I regard Mr. Davis as a representative of the South, in his ardent love of freedom and of constitutional government."

The loftiness of Davis' ideas, his confidence in his fellow-countrymen, his belief in the purity of their motives were then dwelt upon. "Again Mr. Davis represented his people in his high sense of honor and his unwavering fidelity and willingness to suffer, to defend the honor of others; this was the reason he fought as long as strength was left when the soldiers attempted to place him in chains." He looked upon this treatment of himself as an insult to the Southern people. Then Mr. Matheson eulogized Lee in masterly words. He told that after Lee's death there was found in an old knapsack a slip of paper on which the General himself had written: "There is a true glory and a true honor, the glory of duty done; the honor of integrity and principle."

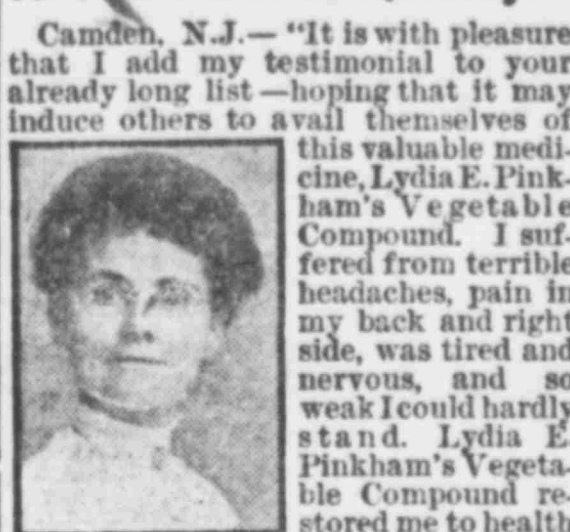

"I have selected this as the characteristic of General Lee to leave with you as an inspiration for higher and nobler achievements. Let us be zealous."

## MORE PINKHAM CURES

Added to the Long List due to This Famous Remedy.

Camden, N. J.—"It is with pleasure that I add my testimonial to your already long list—hoping that it may induce others to avail themselves of this valuable medicine, Lydia E. Pinkham's Vegetable Compound. I suffered from terrible headaches, pain in my back and right side, was tired and nervous, and so weak I could hardly stand. Lydia E. Pinkham's Vegetable Compound restored me to health and made me feel like a new person, and it shall always have my praise."

—Mrs. W. P. VALENTINE, 902 Lincoln Avenue, Camden, N. J.

Gardiner, Me.—"I was a great sufferer from a female disease. The doctor said I would have to go to the hospital for an operation, but Lydia E. Pinkham's Vegetable Compound completely cured me in three months."

—Mrs. S. A. WILLIAMS, R. F. D. No. 14, Box 39, Gardiner, Me.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has cured many cases of female ills, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, indigestion, dizziness, and nervous prostration. It costs but a trifle to try it, and the result is worth millions to many suffering women.

ous to transmit to the coming generations unstained these noble virtues."

"Learning from our noble chieftain devotion to duty and fidelity to right, harmoniously blended with Christian virtues, let us, their sons, love every inch of our country and present our lives a living sacrifice upon the altar of truth and principle."

After Mr. Matheson had concluded Mrs. Geo. Smith and Miss Annie Beville rendered in artistic style a selection on the piano.

Mrs. Wainwright then introduced Dr. Sledd, who, in the name of the University, accepted the portraits.

After thanking the ladies of the Kirby Smith Chapter for the portraits, Dr. Sledd went on to say that this was not the only way in which this chapter had manifested its interest in the young men of the University. It had founded and still maintained a scholarship, the funds from which went to defray the expenses of some deserving student, the son of a Confederate veteran, who otherwise would be unable to attend the University.

Dr. Sledd told of his early youth in Virginia when the wounds from the war had not yet been healed, and of the many lessons he had learned at his parents' knees, lessons inspired by the matchless characters of the Confederate leaders. He hoped and believed that from the University would go forth worthy descendants of those great men, "for we are not unworthy sons of worthy sires."

When Dr. Sledd had concluded Mrs. Wainwright expressed her satisfaction and delight in what had been said.

The exercises were concluded with a piano solo Mr. Peck Greene of the University, followed by a vocal solo by Mr. Kline Graham.

## CONFEDERATE BALL PROVED SUCCESS

LARGE CROWD GATHER AT ELKS HOME FOR THE DANCE.

Many Out-of-Town Parties Present and Hall Thronged With Elite of City.

The Confederate ball given by Kirby Smith Chapter at the beautiful Elks Home on Tuesday evening was the crowning social event of the season, and many of the elite of the city took advantage of the arrangements made by the ladies for their comfort and pleasure on the closing day's entertainment.

There was no part of the arrangements left undone, and the affair proved not only a source of much enjoyment, but a financial project well engineered on the part of the members of the chapter, who raised a neat sum in this way to assist them in their scholarship work.

The home was neatly and gaily decorated for the occasion, and a large number of out-of-town people were present to participate in the dancing of the evening. The music, furnished by the home orchestra, was all that could be desired.

From a financial standpoint the receipts far exceeded the expectations of the ladies, and some purchased tickets just for the cause it represented.

## A POSITIVE CURE FOR INDIGESTION

If you have indigestion, your food ferments in the stomach and bowels. It does more: it decays, and the nutritious matter which should go to make new blood decays with it, and this leads to an impoverished condition of the blood, to nervousness, biliousness, constipation, sick headache, bad breath which disgusts your friends, and other disagreeable and unpleasant conditions.

And all this trouble is caused by the food that doesn't digest, but ferments and oftentimes rots in the stomach.

And fermentation is caused by the stomach not being strong enough and energetic enough to thoroughly mix the food with the digestive juices.

MI-O-NA is responsible for tens of thousands of cures. In fact, it is such a positive cure for indigestion and all stomach troubles that it is guaranteed by J. W. McCollum & Co. to cure or money back. The price of a large box of Mi-o-na tablets is 50 cents, and they are sure to promptly relieve the worst case of indigestion or gastritis. Try them.

## ARCHER WILL HAVE NEW BRICK BUILDING

C. D. WOOD WILL ERECT HANDSOME STRUCTURE AT ONCE.

Dempsey Secures the Contract and Has Placed Order for the Material for Building.

Archer is to have another brick store to be built on the latest plans which will prove quite an addition to that fast growing little city.

S. H. Dempsey, the contractor, returned Wednesday from that place, where he closed the contract with C. D. Wood for the erection of a large store building to be 40x75 feet in size and one story high for the present.

The building will have an iron and plate glass front, and the remainder of the structure will be of brick.

This new building will be located just south of the depot, on the lot owned by Mr. Wood, and together with the other improvements which have already been made around the depot it shows that Archer is fast growing in this particular part of the town. Many predict that it will only be a short while before about all the principal business houses will be located at the depot.

Work will commence on this new building at once and he will rush it through to completion as fast as the material can be gotten on the ground, the order already having been placed. In the meantime the excavation work will be started.

## A HUNDRED MILLION PUBLIC LAND GRAFT

Charged in Reports to Secretary Garfield---Some of the Lands in Florida.

WASHINGTON, D. C., Jan. 19.—Information of a startling character of alleged wholesale and astounding frauds upon the public lands has come into the possession of Secretary of Interior Garfield through special agents in the field.

The serious allegation is made that approximately \$110,000,000 worth of lands in States principally west of the Mississippi river have been fraudulently acquired within the past two years by corporations and individuals.

With a view of recovering these lands Secretary Garfield sent yesterday letters to Chairmen Hale and Tawney of the Senate and House Appropriation Committees, respectively, asking for an additional appropriation of \$500,000, which, if granted, with

MR. WILLIAM A. PRESSER, 1722 Third Ave., Moline, Ill., writes:

"I have been suffering from catarrh in the head for the past two months and tried innumerable so-called remedies without avail. No one knows how I have suffered, not only from the disease itself, but from mortification when in company of friends or strangers.

"I have used two bottles of your medicine for a short time only, and it effected a *complete medical cure*, and what is better yet, the disease has not returned.

"I can most emphatically recommend Peruna to all sufferers from this disease."

Mr. A. Thompson, Box 65, R. R. 1, Martel, Ohio, writes: "When I began your treatment my eyes were inflamed, nose was stopped up half of the time, and was sore and scabby. I could not rest at night on account of continual *hawking and spitting*."

"I had tried several remedies and was about to give up, but thought I would try Peruna."

"After I had taken about one-third of a bottle I noticed a difference. I am now *completely cured*, after suffering with catarrh for eighteen years."

"I think if those who are afflicted with catarrh would try Peruna they would never regret it."

## INTERESTING PROGRAM J. J. FINLEY CHAPTER

HISTORICAL AND SOCIAL REUNION TUESDAY NIGHT.

Musical Program and Entertaining Addresses Feature of Evening's Entertainment.

The Annual Historical and Social Reunion of the J. J. Finley Chapter, U. D. C., was held Tuesday evening from 8 to 11 o'clock at the residence of Mrs. J. D. Stringfellow. This attractive home was tastefully decorated for the occasion with lovely ferns and cut flowers. The program was composed of music and addresses, and each contributor to this part of the entertainment won well merited applause.

The program was opened with a piano solo, rendered by Mrs. W. F. Yocum in a skilful manner. Other musical selections by Misses Tittman and Leonora Vidal showed the ability of these artists. The vocal solos by Mrs. Dora Wallace, Dr. George S. Waldo and Miss Lucia Patton were highly appreciated. The singing of the State song of the United Daughters of the Confederacy, "Way Down Upon the Swannee Ribber," by the chapter, brought forth generous applause.

Judge Horatio Davis, commandant of Stonewall Camp, U. C. V., in a fitting memorial paid a loving and eloquent tribute to that beloved hero of the South, Gen. R. E. Lee.

Mrs. J. L. Kelley, president of J. J. Finley Chapter, responded in a few well chosen words, briefly outlining the objects and aims of the Daughters of the Confederacy.

Mrs. J. M. Taylor followed with a short sketch of the historical work of the chapter during the past year.

The program closed with a humorous recitation by Miss Belle Sadler. Her natural and inimitable style won for her a hearty encore, to which she responded with "You Old Confeds."

Delicious refreshments were served, Mrs. J. D. Stringfellow and Mrs. W. B. Taylor presiding at the table, which was tastefully decorated in the red and white colors of the Daughters.

After a social hour the large assembly of friends, taking leave of the genial hostess, expressed themselves in terms of high appreciation.

The Mildred E. Lee Chapter, Children of the Confederacy, also observed memorial services at the residence of Mrs. G. K. Broome from 3:30 to 5 p. m. Songs by the children and addresses from visitors comprised the program.

At this time the children decided to offer a gold medal to the student of the University of Florida who submits the best essay on the "Cause that led up to the war between the States." Great enthusiasm was manifested by the children.

After partaking of delightful refreshments the children bid adieu. Both chapters desire to express their sincere appreciation to those who so generously contributed to these enjoyable occasions.

## COOPER CASE BEFORE PARDONING BOARD

TALLAHASSEE, Fla., Jan. 19.—Notice has been served by the Board of Pardon that the application of Isajah E. Cooper for pardon will be heard January 26.

This case is one of State-wide interest. Cooper was convicted five years ago, nearly six years ago, for the murder of J. H. Bowman, the town marshal of Punta Gorda. The evidence against Cooper was all circumstantial. The case has been before the Board of Pardon a number of times, but no disposition has ever been made of the matter and Cooper still remains in the DeSoto county jail. Since his conviction, death warrants have been issued three times for his execution, but it has probably been through the evidence produced before the Board of Pardon that these warrants were withdrawn each instance in time to save Cooper's neck. Gov. Gilchrist will be the third Governor to review the Cooper case, and the result of the hearing next week is awaited with considerable interest.

## Will Don Suits of Cotton To Widen Staple's Use

ATLANTA, Jan. 19.—Some 400 delegates and officials of various branches of the Georgia Farmers' Union met in convention in the hall of the House of Representatives at the State Capitol, upon call of the national board of directors and of the Cotton Committee, appointed at the recent meeting held in New Orleans for the purpose of discussing and taking action upon the union warehouse problem, and attending to other matters of importance.

At the outset the warehouse question and other matters were placed in the hands of special committees for consideration and report.

One of the most interesting actions taken at the meeting was the passage of a resolution providing for the adoption of a uniform suit of cotton clothing, to be worn by farmers while at work on the farm. A committee will take the matter in hand for the purpose of perfecting the details.

If the 3,000,000 members of the

union throughout the country fall in line with this new movement, and provide themselves with working suits of cotton cloth it is apparent that they will at once create a new and important use for their great product.

Right in line with this action was the passage of a resolution by unanimous vote to insist on and encourage the extension of the uses of cotton in the manufacture of bags and bagging used in covering commercial packages.

The convention will be in session today and before it adjourns, will take some action probably on the question of the consolidation of the union warehouses of which there are now about 100 in Georgia. The warehouse movement is one of the most important features of the union's program.

At the same time with the convention the business agents of the country and the local unions over the State held their annual meeting in the Senate chamber for the purpose of mapping out their 1909 campaign.

### "Charley's Aunt."

As so many people were unable to attend the performance of "Charley's Aunt" last Friday evening, another opportunity will be given them. The caste have all consented to play again on Friday, the 22nd, and promise a smoother performance. Mr. Tench expects to have his gowns from Paris for the occasion. He says the other "ladies" in the caste so far overshadowed him they made him

jealous. If you haven't seen this little gem of a comedy, come out Friday night—if you have seen it, come anyhow and see if we haven't improved. At any rate, if you don't see it, don't tell me Saturday that you are sorry, because you won't be half as much so as I. You can go this morning and get a ticket at Miller & Vidal's or you can wait until tomorrow—it don't matter, just so you get the ticket before Friday night.

## Prohi's to Build School Houses To Kill Liquor

NASHVILLE, Tenn., Jan. 18.—By coincidence the trial of Col. Duncan B. Cooper and his son, Robin, for the murder of former Senator Carmack, which murder was caused indirectly by the prohibition question, comes up for hearing just as the fight for State-wide prohibition is at its height.

Prohibitionists, by breaking the Democratic caucus, forced a State-wide bill through the Legislature last week and the bill now awaits Gov.

Patterson's action. The prohibitionists are now trying to have another bill passed, prohibiting the manufacture of alcoholic, malt or vinous liquors in Tennessee.

The measure, known as the State-wide law, simply prohibits the sale of liquor within four miles of any school house. The prohibitionists say that if there is a spot in the State which is not within four miles of a school house they will see that a school house is built there.

## BLUE LAWS AND BLUE PEOPLE.

(Atlanta Constitution.)

The eyes of all America are focused just now with an amused interest on the Florida city of Pensacola, where there is under way a determined attempt to enforce the "blue laws" as they were enacted in all their vigor fifty years ago.

At this juncture, the authorities and the blue laws have all the best of the controversy. Business men have been unceremoniously "pinched" for opening their mail on Sunday, the soft drink establishments have closed up with a bang on the Sabbath, and the only thing that restrains the sheriff from putting a ban on trolley traffic is that the city attorney has designated it as a "necessity of life."

The affair has, of course, its own humor, but is also not without a serious phase. Statutes of this stringency are a survival of the era when the country was more or less infected with Puritanism. Men then took literally the Biblical injunction regarding the ox in the ditch. They conceived it to be their duty to make their neighbors religious, no less volens, that inevitable human officiousness with respect to the affairs of others and the tendency to monopolize to one human theory all virtues being then in the ascendant.

We have widened out as to soul and mind since those days, and we are speedily arriving at the knowledge that men are not made holy by statute or precept, but by example and by teachings that persuade the soul without doing violence to the intellect.

No indications are uppermost that America, or the southern part of it at least, would sanction or permit the laxity of an European Sunday. In a majority of the Southern cities, for example, these so-called "blue laws" have been obsolete for full half a century. People enjoy their Sabbaths in a quiet, reverential and orderly manner, and men do not seem poorer Christians for the fact that they can buy on Sunday a cigar or a glass of soda water.

It is an inviolable law of human nature, supported by history that is ancient as well as amusingly modern, that no statute is stronger than community sentiment. History shows also the tragic monumental error of religion by coercion. Blue laws, or those condemned by that preponderating religious sentiment that does not lose sight of the factor of progress, make a blue people. What is more, they promote that which the liturgy especially cautions us against—hypocrisy, "envy, hatred and all uncharitableness."

The number of people victimized by palmists, mediums and other quacks is enormous. That the business is profitable is evident from the number that follow it. Now and again one such person gains well nigh universal notoriety by reason of the strange compound of genius, charlatanry and personal magnetism he possesses. A man thus equipped secures for his dupes wealthy people who have to be swindled out of a good deal of their money before their eyes are opened to his true character. Just now two continents are talking of the doings of one of these charlatans who, under the name of "Count de Hamon," has fleeced a number of people in France who had more money than brains. He is the same man who as "Chefro" cut such a wide swath in this country a few years ago, but whose real name is just plain John Warner. In his make-up of cleverness, quackery and impudence he seems to be another "Compte di Cagliostro," who duped France and England in the eighteenth century. The unprincipled character of these impostors is constantly being exposed, but in spite of it there are always plenty of people who seem to enjoy being fooled.

There should be no more new counties formed in Florida until the larger counties are given the representation in the Florida Legislature that their population justly entitles them to. It is not just that a county having a population of ten thousand should have a Senator and two representatives, when a county of fifty thousand has only that number. Make the apportionment equal before forming new counties of already sparsely populated territory.

"Here lies a man," begins Poet Paul Cook in The Birmingham Age-Herald. Well, we suppose there is always room for one more in the Ananias Club.

## For Lameness in Horses

Much of the chronic lameness in horses is due to neglect. See that your horse is not allowed to go lame. Keep Sloan's Liniment on hand and apply at the first signs of stiffness. It's wonderfully penetrating—goes right to the spot—relieves the soreness—limbers up the joints and makes the muscles elastic and pliant.

## Sloan's Liniment

will kill a spavin, curb or splint, reduce wind puffs and swollen joints, and is a sure and speedy remedy for fistula, sweeney, founder and thrush.

In both the near East and far East matters remain in an unsettled condition and are the cause of anxiety to other countries. In the Balkans the reassuring outlook of one day is offset the next by disquieting rumors, and as the winter is slipping by fast and no settlement of the various questions directly involving Turkey, Austria, Bulgaria and Serbia is in sight, there is grave danger of hostilities in the spring. In China the dismissal of the reform prime minister causes much uneasiness among the foreign legations, inasmuch as the action betrays a reactionary sentiment which is always hostile to foreigners.

Some of the editors who did not support Governor Gilchrist in his race in the primary, but on the contrary did everything in their power to defeat him, resorting in some instances to questionable methods to injure his candidacy, are now "slobbering" all over him. The Sun opposed him in his race for the nomination, but never resorted to abuse or vilification of the man we had known for thirty years to be an honorable, upright gentleman, and we are glad to observe that some of our contemporaries have found out that he really is not so bad a man they pictured him during the primary.

The secrecy which characterized the administration of Governors Jennings and Broward will not be tolerated by Governor Gilchrist. At the last meeting of the Internal Improvement Board and Board of State Institutions it was ordered that the secretary have the records always in shape for public inspection by anyone desiring to examine them. This order was made at the personal request of the Governor.

The unattached female who did not exercise her leap year prerogative will have to be content with three more years of spinsterhood.

We now know officially who is elected President, for the electoral college has met and cast its vote. The fact that the people actually made the choice in November and that the action of the college was only perfunctory indicates the change that has taken place since the day our fathers designed that the actual and not the nominal election should be done by the electoral college and not by the people.

Tallahassee has an ordinance prohibiting chickens and geese running at large in the city limits. It is a good law, and such an ordinance should be passed by the Gainesville Council, prescribing the area in which they shall not be permitted to destroy other people's flowers. Your neighbor's poultry should have no more rights in this respect than his cow.

It took quite a while, but Mr. Hitchcock has finally secured a confirmation of the report that he will be in Mr. Taft's cabinet.

If the House keeps up the pace it will soon become an active instead of a sleeping partner in the Government.

Pretty much all of the State of Ohio has climbed aboard the water wagon. Only a few wet counties are left.

Night riders doubtless were surprised, not at the fact of being guilty, but the nerve of the jury in saying so.

The female sex is making progress in one respect. It can select better Christmas cigars than it used to.

Rather than free text books, some of the youngsters would prefer free baseball bats.

## THIS MAN GOT PARDON AND \$800.00 BESIDES

After Serving Fourteen Years for Breaking Into a Store and Stealing a Ham.

ATLANTA, Jan. 18.—There are few, if any persons in Georgia who are appreciating the joys of freedom with a deeper and more abiding appreciation than Bruce Reed, who not only has a pardon in his pocket after a penitentiary service of fourteen years, but along with it \$800 in cash.

Reed is a Harris county negro, who was convicted of breaking into a store and stealing a ham. For that offense, burglary, he was given the limit of the law, twenty years in the penitentiary. For fourteen years Reed worked away in the Durham coal mines, in Walker county, up on the Tennessee line, until one day a few weeks ago, Police Commissioner James Key of Columbus called the attention of Prison Commissioner Wiley Williams to the case. Reed was a negro who had borne a good reputation prior to this crime, and Capt. Williams concluded that fourteen years was a long enough service for the theft of one ham.

Commissioner Williams took up the

case with his colleagues on the commission and succeeded in having Reed pardoned last week. Subsequently Capt. Williams had occasion to visit the Durham mines to make an inspection, returning from there the latter part of this week.

While there he learned that Reed, by working over time during his fourteen years' service, had saved \$800. Each man in the mines is required to get out so much coal as a daily task. After he has completed that he is free to rest or to continue work, and in the latter instance receives pay at the rate of about 40 cents a ton for all additional coal dug out.

Reed stuck close to work and when his pardon came Capt. J. L. Gordon, warden at the Durham mines, went to Chattanooga with him, drew his money from the bank and gave it to him—\$800 in new crisp bills.

Reed has gone back to his home, having announced his determination to set him up a legitimate business and make a good citizen henceforth.

On Tuesday they shipped a carload of assorted stock to Southwest Georgia to a large cattle ranch just being started there by Chicago capitalists, the manager of the new ranch being G. M. Henry.

The farm is located near Brinson, Ga., and the fact that they are getting their stock from the Spring Park Farm denotes that we have the best blooded stock to be found in the South.

HAGUE-PINE COTTAGE DEBATE.

Pupils of Former School Win Over the Latter.

HAGUE, Jan. 18.—The Hague Literary Society program was rendered last Friday night with much interest, the following being the program:

Quotations—Proverbs.  
Song—Society.  
Recitation—Ellis Hinnint.  
Song—The five Hague girls.  
Wit and Humor—Flores Clyant.  
Debate—Resolved, That George Washington has been the greatest general America has ever produced.  
Affirmative—Johnnie Dampier, Jennie Small, Lola Hague. Negative—Jennings Malphurs, Mary Hinnint, Lester Strickland. Reading—Maggie Strickland.

The debaters for one hour and fifteen minutes poured out to the judges' consideration those realities of which our history has recorded. They devoted all the energy of their mind and body, and their voices echoed over the heads of many, stating the great "military tactics" of the two greatest men our native country has ever put forth—Washington and R. E. Lee. Hague charged into the lines of Pine Cottage, and in return the former received a destructive fire, but fortunately they stood ready to make another charge. The latter each time repulsed every attack and with much zeal and interest Pine Cottage sent forth equal charges which brighten the encouragement of a "defense." But in spite of all, Hague's horizon was brightened and "lit up" by the honorable judges coming to their rescue and giving their decision as: Two for the affirmative and one for the negative.

## EDWIN SWEAT DEAD FROM HYDROPHOBIA

OCALA, Fla., Jan. 18.—Mr. Edwin Sweat, a well-known young man living just outside the city limits, who has been suffering for the past two days with hydrophobia, died at his home at an early hour this morning. About three months ago Mr. Sweat was bitten by a small stray dog while chasing the animal from his yard. The bite was not considered serious at the time and nothing more was thought of the matter until a few days ago. His little 6-year-old son was bitten before the dog was finally driven away, but as yet has shown no symptoms of the disease.

A determined effort has been made by the authorities to locate the dog, but up to this time they have not been successful. The city authorities for several months have been placing in the pound all dogs found on the streets without muzzles. Mayor Robertson has issued orders to the officers to shoot all dogs found on the streets which were not properly muzzled, in an effort to prevent another occurrence of this kind. The attending physicians wired the State Board of Health Saturday night for the Pasteur treatment, which will be given to the child.

Mr. Sweat's untimely death has cast a gloom over the entire community, who extend their sympathy to his bereaved family. Mr. Sweat is survived by a wife and three small children.

## CABBAGE SHIPMENT SOON TO COMMENCE

SOME FEW CRATES NOW BEING  
MOVED FROM HERE.

By First of Month Shipments Will  
Run Into Carloads Daily—Good  
Prices Anticipated

The shipment of cabbage has commenced in this section and several crates are now being forwarded daily by the express company.

Heavy movement of this particular vegetable will not occur, however, until about the first of next month, when they will be going from this and other places by the carload every day.

There has been a larger number of acres planted in this section this year than for quite a while, and from the fact that the Northern markets are about exhausted of the vegetable farmers are anticipating good prices throughout the season.

Not only has the acreage been large around Gainesville, but all down the line there seems to be a large number of people that have planted heavy of cabbage, and the bulk of them will be moved from about the first to twentieth of next month.

It is to be hoped that the growers will all realize their expectations and make good on the crop.

## Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, swayed bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

If your dealer offers something "just as good," it is probably better FOR HIM—it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.

THE MISSIONARY  
INSTITUTE CLOSESVERY PROFITABLE TWO DAYS'  
SESSION IN GAINESVILLE.Session Was Held Under Auspices of  
Woman's Foreign Missionary So-  
ciety of Methodist Church.

(By Mrs. J. E. Futch.)

Monday Evening.

The Missionary Institute under the auspices of the Woman's Foreign Missionary Society of the First Methodist Church of Gainesville, continued its session by a splendid address from Miss Davies of Atlanta, Ga. Miss Davies, one of the national field workers in the young people societies of the Southern Methodist Church. Being a powerful and logical speaker, the great truths she uttered fell convincingly on her large audience. One of the most important thoughts suggested by her was the admonition to young people to have a purpose in life, and with it linked to God success could be expected. Some of the problems that missionary workers had to contend with seemed to be no problems at all, as this gifted, consecrated woman discussed them with that enthusiasm based on definite knowledge.

Tuesday Morning.

The session was opened with devotional exercises, Mrs. William Pepper leading. Afterward the workers seemed to have come in touch with the theme, as the Institute had a more spiritual tone. The hour had now come for the Workers' Conference. Mrs. Lang Phifer presided with ease and dignity. The subject first under discussion was "The Weak Points in Our Auxiliary and How to Overcome Them." Miss Davies from time to time, from her large experience, gave many helpful suggestions as how to strengthen the weak points, as they were told by the different auxiliaries. After a spirited discussion by the workers, the next subject was presented by Mrs. Holland, "Finance." The church has its troubles on this, the solution of which was the ruling of the members. All of the obligations necessary to do business for the Lord could be easily met if the tithing system prevailed.

Plans were suggested as how best to manage the raising of funds necessary when tithing was not practiced. Mrs. F. R. Bridges led in the next discussion, "Mission Study," and in definite way made clear that it was the informed mind who did things, and information on any subject meant study and investigation. The closing hour was drawing rapidly near, so these helpful discussions had to close. Miss Davies was asked to close with

MISSIONARY'S WIFE  
PRAISES CUTICURADaughter's Head Encrusted with  
Dandruff—Feared she Would Lose  
her Hair—Many Treatments were  
Futile—Baby had Milk-Crust.BOTH CHILDREN CURED  
BY FAMOUS REMEDIES

"For several years my husband was a missionary in the Southwest, and we were living on the edge of the desert at an elevation of nearly five thousand feet. Every one in that high and dry atmosphere has more or less trouble with dandruff and my daughter's scalp became so encrusted with it that I was alarmed for fear she would lose all her hair, which was very heavy. After spending between five and six dollars for various remedies, in desperation I bought a cake of Cuticura Soap and a box of Cuticura Ointment. After rubbing the Cuticura Ointment thoroughly into the roots of the hair, I gently combed the crust of dandruff free from the scalp, and then gave her head a thorough shampoo with the Cuticura Soap. This left the scalp beautifully clean and free from dandruff, and after the hair was dry, I again rubbed the Cuticura Ointment, this time sparingly, into the roots, and I am happy to say that the Cuticura Remedies were a complete success. My troubles with dandruff were over, although for a long time afterward I used the Cuticura Ointment as at first, after shampooing, which kept the scalp and roots of the hair moist. I have used successfully the Cuticura Remedies for so-called 'milk-crust' on baby's head, and have never found anything to equal them. You are at liberty to publish this letter, for I do sincerely believe that the Cuticura Remedies are a blessing to mankind. Mrs. J. A. Darling, 310 Fifth St., Carthage, Ohio, Jan. 20, 1908."

Cuticura Ointment is one of the most successful cures for torturing, disfiguring humors of the skin and scalp, including loss of hair, ever compounded, in proof of which a single anointing with it, preceded by a hot bath with Cuticura Soap, and followed, when necessary, by a mild dose of Cuticura Resolvent (liquid or pills) is often sufficient to afford immediate relief of itching, burning and scaly humors, eczemas, irritations and inflammations, permit rest and sleep, and point to a speedy cure when all else fails.

another one of her spirited talks. This time she addressed the Institute on what she thought was the weak point in nearly all of the auxiliaries; that was, the uninteresting monthly meetings. In closing she spoke highly of Gainesville and the hospitable manner in which she had been treated. Concluding, she said she was expecting great things from Gainesville.

Music by the choir was one of the very enjoyable features of the Institute.

NEW YORK TO HAVE  
"MODEL" BUILDING

NEW YORK, Jan. 18.—An object lesson in fireproof construction, particularly interesting to the architects and builders and to the real estate and insurance men of New York, is now being conducted on the north side of Union Square. On the site of the old Everett House a seventeen-story mercantile building is rising. In it the architects and contractors are trying to realize the ideal expressed in the much-abused term, "absolutely fireproof."

The frame is the familiar steel skeleton; it is the thorough protection of the metal that will make the building indestructible. The outside columns are covered with cement mortar and the interior columns by at least three inches of hollow terra cotta blocks laid in mortar. The floor arches are of terra cotta and are so constructed as to enclose the beams completely. Throughout the partitions are of the same kind of unburnable blocks as the floors.

The windows will have frames of hollow metal, with panes of wire plate glass. The "risers" and "stringers" of the stairways will be of extra heavy cast iron and the treads of sheet iron. Elevator shafts are enclosed by walls of six-inch hollow tile blocks. A complete sprinkler equipment will be supplemented by an automatic fire alarm service; and a watchman's clock system on every floor will make sure that no blaze, even if one starts, will gain much headway with the contents of the building before being detected.

If you haven't the time to exercise regularly, Doan's Regulets will prevent constipation. They induce a mild, easy, healthful action of the bowels without griping. Ask your druggist for them. 25c.

SAM B. RUSS DIES  
IN JACKSONVILLE

JACKSONVILLE, Fla., Jan. 18.—Samuel B. Russ, at one time one of the best-known newspaper men in the State, was Sunday morning found dead in his bed in a West Bay street lodging house. His identity was unknown until he was identified by a Times-Union reporter who saw the body after it had been carried to the undertaking establishment.

For several years "Sam Russ," as he was familiarly known, was a member of The Times-Union editorial staff. He was a bright man, one of the cleverest writers that ever worked on the paper, and he had a large circle of friends.

For a long time he was theatrical critic for The Times-Union, and was well and favorably known in the theatrical world. Many times this season have the older theatrical managers who have visited Jacksonville asked the question, "What has become of Sam Russ?"

He left the services of The Times-Union some time ago, and since that time he has not been employed. For several days, in fact, many weeks, he has been in bad health, and when it was learned by his friends yesterday that he had been found dead, there was little, if any, surprise.

Mr. Russ came to Florida about thirty years ago with a brother. They had formerly lived in Boston, in fact, they were natives of that city. The brother died about a year ago in South Florida.
